PREFACE

I HAVE compiled this bibliography in the hope that it may be of some use to those who, like myself, take an interest in books on gaming. I have described the title of every work, however slight, on cards or gaming that I have been able to discover, and have also included all books which contain allusions, of sufficient importance to be recorded, to those subjects. Among books on Conjuring, I have of course included all books on Tricks with Cards; in addition to these however, the many hundreds of works on Conjuring and Recreations in general all make more or less mention of card tricks. Of these I have described only those which are interesting on account of their antiquity or importance. Those readers who desire fuller details in this branch of literature will find them in the Bibliography of Conjuring by Mr. E. Stanyon. I have included a few plays and works of fiction which depend on gaming for their plots, or which contain scenes which illustrate the mode of playing some particular game.

I have examined personally nearly all the books in my list, but of some I have only been able to record the titles which I have found in the bibliographical

works of Watt, Lowndes, Allibone and Hazlitt, and the English and American Catalogues of Books. For a few titles, mostly American, I am indebted to the works on Card Games of Messrs. Rheinhardt, Horr and Butler, and to the columns of *Whist*.

In periodical literature, I have endeavoured to discriminate between the two classes of publications which we usually speak of as magazines and as newspapers. It is obviously impracticable to treat of the latter; of the former class I have not found many articles on gaming, etc., recorded in the various indexes to periodical literature, and I have had to rely almost entirely on my own collection.

I hope that the index will be useful to any inquirer on the bibliography of any one game, or branch of gaming.

Any corrections or additions that may tend to the improvement of this book will be gratefully received, as also any suggestions likely to prove useful in the compilation of a similar bibliography of French books on Gaming which I have in contemplation.

FREDERIC JESSEL.

(With a curious engraved frontispiece of portraits of the principal contemporary authors, the Muses, and Drollery. This book is the earliest that has come down to us with a treatise on games of cards. Part 7, referred to

on the title, has chapters on the Noble Spanish Game, called L'Ombre ; the Ingenious Game, called Picket ; the Noble and delightful Game at Glee ; the Gentile Game of Cribbage ; and the Princely Game of Chesse. The first edition was published by N. Brook in 1571, but did not contain these chapters, though it included a few tricks with cards in part 2.)

309.—Do. ix + 175 pp. 8vo. Charles Brome, London, 1687.

(I have been told of an edition of 1684, but I have been unable to obtain any authoritative confirmation of the statement. George Walker writes of an edition of 1690. His dates are never to be relied upon, and this is probably a mistake for 1680.)

310.—Do. Do. To which is Added, The Game at Basset, never before printed in English. ix + 184 pp. 8vo. Charles Brome, London, 1709.

311. COTTON, CHARLES.—Do. To which is Added, The Game at Bassett, with a Discourse of Gaming in General, the Description of a Gaming Ordinary, and the Character of a Gamester. (A very full account of this interesting work was written by Mr. Julian Marshall and printed in *Notes and Queries* for April 26 and May 17, 1884. The frontispiece of the 1680 and subsequent editions is a coarser reprint of that of the first two editions. It contains among other sports the earliest known representation of a whist party, which was reproduced as the frontispiece of the tenth and other editions of "‘Cavendish’ on Whist," No. 934. For the twenty-first edition, No. 946, the plate of 1674 was copied. 'The Compleat Gamester' was published anonymously, and we learn the name of the author from Seymour. See No. 1391, *note*.)

773. HOYLE, EDMOND.—Do. The fifth edition. 76 pp. 12mo. F. Cogan, London, 1744.

(This treatise was the first attempt at a really scientific work on cards, and its author may be looked upon as the Father of any method of intelligent play applied to games of skill. The work was originally circulated in manuscript form, then printed and sold by the author at a guinea per copy. Owing to the high price many 'pirated' reproductions were sold both in England and Ireland. This was probably the reason why the price of the second edition was reduced to two shillings. In the fourth edition, the author says in an address to the reader that the Proprietor has already obtained an Injunction against Nine persons for pirating or selling pirated editions. Two of these are next described—Nos. 774 and 776. The second and all subsequent editions down to the fourteenth are signed by the author, as are the separate treatises on Backgammon, Piquet, and Quadrille. I am of opinion that the sixth edition of the Treatise on Whist was not sold separately, so I have postponed its description till after that of the separate treatises. The only copy known of the fifth edition, in the British Museum, is not signed. The fifteenth and sixteenth editions are signed in facsimile.)

774. HOYLE, EDMOND.—A Short Treatise on the Game of Whist, containing the Laws of the Game, etc. . . . by A Gentleman. 12+86 pp. 8vo. Bath, printed, and London, reprinted for W. Webster, near St. Paul's. 1743.

776. HOYLE, EDMOND.—A Short Treatise, etc., etc. iv+36 pp. 12mo. London, printed for W. Webb, near St. Paul's. 1742. Price 6*d*.
 (This is a curious example of a piracy of a pirated edition. It is a verbatim reprint of the previous book, which cost half-a-crown, and of which there was probably an early or 'Bath-printed edition' printed in 1742. I have never seen one, but I have a copy differing from the edition of 1743, which lacks the title-page, so it may be the one in question.)
777. HOYLE, EDMOND.—A Short Treatise on the Game of Back-Gammon. By Edmond Hoyle, Gent. 69 pp. 12mo. F. Cogan, London, 1743. (Price 2*s*. 6*d*.)

T. Osborne, London, and others, 1746. ('Price one shilling.' This generally, if not always, occurs bound up with the Treatises on Quadrille, Piquet, and Backgammon, and sold as 'Mr. Hoyle's Treatises' or 'Mr. Hoyle's Games.' It is doubtful if either this or the seventh edition was sold separately.)
799. HOYLE, EDMOND.—Do. The seventh edition. 1747. (This does not differ from the sixth except that the advertisement of the sheet of the Laws of Whist no longer appears on the verso of the title-page.

To which are added the games of Quadrille, Piquet, Chess and Back-Gammon, fully explained. Likewise a Dictionary for Whist and an Artificial Memory. The whole founded on the experience of Edmund Hoyle, Gent. London : printed for Tho. Osborne and sold by W. Reeve. 1748. (This title-page, in red and black, is inserted before the title-page to the Treatise on Whist last described. It would appear that Osborne sold his remainder to W. Reeve, who issued it as a ninth edition. It contains certain misprints which are also in the early copies of the eighth, but not in all, so Osborne may have continued to sell a corrected edition himself.)
802. HOYLE, EDMOND.—(Treatises.) . . . Whist. The tenth edition. 224 pp. 12mo. T. Osborne, London, 1750. (Signed by Hoyle and Osborne. Reissued 1755. Sold by W. Reeve.)

Thomas Osborne, Stanley Crowder, and Richard Baldwin, London. (1761. Signed by Hoyle and Osborne. On p. 214 is a list of errata ; a later issue of this edition appeared with the errata corrected in the text, and yet another variant on slightly larger paper, without any ornament on page 212. These editions, like the next, are not signed in writing. Quadrille and Piquet are fourth editions, Backgammon the fifth.)

810. HOYLE, EDMOND.—Do. The seventeenth edition. xii+207 pp. 12mo. P. Charles, London, N. D.

816. HOYLE, EDMOND. — Do. The tenth edition. 247 pp. 12mo. Peter Hoey, Dublin, 1787. (With the addition of chapters on Billiards and Tennis. Another edition, 1790. This is the last book to be noticed as the work of Edmond Hoyle. The seventeenth edition was the last authorised publication of his Games, which afterwards were brought out by different editors. From about 1775 to the present day numbers of books on card and other games have been published under the name of Hoyle. A list of those with which I am acquainted follows. In making a collection

of Hoyle's original works, I was greatly helped by a very exhaustive bibliography of Hoyle by Mr. Julian Marshall which appeared in *Notes and Queries* during the years 1889-1890. It is unfortunately incomplete, but contains descriptions of the separate treatises and of the 'Games' down to the thirteenth edition.)

(This is a satire on the fashion of whist-playing, which received so great a stimulus from the treatise and teaching of Hoyle, who appears in the play as 'Professor Whiston.' It is mentioned in Baker's 'Biographia Dramatica,' but does not seem ever to have been performed. The price of the first edition was a shilling, of the second, sixpence. Perhaps there was a frontispiece also to the first edition, but it is wanting in every copy that I have seen. A curious epilogue—'In a dialogue between the author and a book-seller'—is omitted from the second edition.)

(Henry Jones began to write under the

name of 'Cavendish' in the year 1862, and attained fame and popularity equalling, if not excelling, that of Hoyle as a writer and authority on Card Games. He was not only a keen and enthusiastic student of the methods of play and laws of games, but also a learned and reliable authority on their history, as may be seen by the Historical Introductions to his treatises on Whist, Écarté, Piquet and Bézique, and his many essays in periodical publications. He was editor of the card column of *The Field* from 1864 till his death in 1899, and gave it the position which it still holds, of the leading authority on cards in the world. He contributed the articles on cards and on many card games to the 9th edition of the 'Encyclopaedia Britannica' and to 'Chambers's Encyclopaedia.' Other articles by him will be found in Nos. 150, 302, 632, 752, 1110, 1138, 1187, 1251 and 1677.)

(In the editions of 1778 and 1779 is a notice that none are genuine, Mr. Hoyle being dead, save those signed by W. Wood and T. Wood respectively. This notice is omitted from the edition of 1782. There are separate title-pages to those games of which Hoyle himself treated, bearing the name of Edmond Hoyle, Esq. The treatises are reprints of the last edition of Hoyle's Games (the 17th), but are without any publisher's name. 1496. SEYMOUR, RICHARD.—Do. The seventh edition. xii + 324 pp. 12mo. J. Hodges, London, 1750.
1497. SEYMOUR, RICHARD.—Do. The eighth edition. First written for the Use of the

Young Princesses, by Richard Seymour, Esq., and now carefully revised, very much enlarged and improved, agreeable to the present method of playing the several Games, by Charles Johnson, Esq. xii+324 pp. 12mo. J. Hodges, London, 1754.

(On the title-page 'Whist' is removed from the second part, *The City Gamester*, and now leads the list of games in Part I., *The Court Gamester*; showing the great advance this game had made in fashionable favour by 1754. A great deal more space is given to whist in this edition, at the expense of chess. Mr. Julian Marshall, in accusing Seymour of gross plagiarism from Hoyle, has overlooked the fact that the additions were made by Charles Johnson and not by Seymour himself. The Game of Lottery is added to those in Part II. Most copies of this edition have the same frontispiece as those of the other editions, but a few copies are found with a reprint of the frontispiece from No. 314.)

1711. WITHY, ROBERT. — Hoyle Abridged, Part II., or Short Rules for Quadrille.

23 pp. 12mo. For the Author and others, London, 1723.

(Mr. W. P. Courtney has proved conclusively that Robert Withy was the author of the above treatises. The treatise on Quadrille does not appear to have attained a second edition, as the interest in that game was killed by the favour into which Whist had sprung. Many reprints of the little book on Whist were issued both in London and the Provinces, but I have been very unfortunate in attempts to acquire early copies. Robert Withy died in 1803. I do not suppose that 'Bob Short, Jun.' who dates from 'Long's Hotel' was really any relative. Some of the later prefaces of 'Bob Short, Jun.' are dated from 'Steven's Hotel.')
